

Service and Repair Center Leetsdale, Pennsylvania

Bringing Service to You

Our support for your operations goes beyond supplying equipment. With our local service and repair facilities, we help maintain your equipment and assist your crew.

Our newest facility in Leetsdale, Pennsylvania is ready to quickly provide the local repair and service you need to help you thrive in the Northeastern United States drilling market. The 27,000-square-foot facility sits on a five-acre patch of land at the entrance of Leetsdale Industrial Park, strategically located to help reduce downtime and shorten response time. Easy access geographically, a vast supply of parts and services on-hand, and skilled in-house and mobile technicians ensure we are prepared to keep your equipment running efficiently so you can maximize uptime.

Facility Features
