

Service and Repair Center

Odessa, Texas

Bringing Service and Repair to You

Our support for your operations goes beyond supplying equipment. By providing local service and repair through our aftermarket facilities, we help maintain your equipment and assist your crews to maximize your uptime.

Since 2012, NOV has provided regional support with a fleet of FAST Solutions vehicles. Our 24,600-square-foot facility in Odessa, Texas is strategically located near your rigs to help reduce downtime and shorten response times. Easy geographic access, a vast supply of parts in stock, and skilled in-house and mobile technicians ensure we are ready to quickly provide the local repair and field service you need to help you thrive.

In-House Service and Repair

- Training on NOV equipment, on-site service and support, repair services, and spare parts
- Repair and recertification to NOV Quality Assurance standards and OEM Specifications using only OEM parts
- Full staff of qualified service technicians, warehouse personnel, operations personnel and 24-hour service representatives
- Global distribution service network support to get you a spare part if our facility is out of stock
