Name	Company Name	
Title	Street	
E-Mail	City	State/Province
Telephone	Zip/Postal Code	Country

What is the equipment currently in use for this application?

**Process Data**  
Product to be produced / process description:

Component	A	B	C	Mixture
Viscosity mPa·s				
Specific Gravity / Density				

# Greerco High Shear Mixer App. Form

Type of Solvents			
% Solids		Dissolvable	Suspendable
Temperature		°C	
Operation (select one)	Batch	Recirculation	Continuous
Batch Size		Recirculation/Continuous Flow Rate:	
Corrosive	Non-Corrosive		
Abrasive	Y	N	
Chemical Injection required at mixer:	Y	N	

<b>Mechanical Data</b>					
Tank Dimensions			Tank Discharge Line Size (diameter in m)		
Pressure / Vacuum Service			Max. Operating Pressure / Vacuum		
Tank Discharge / Recirculation Pump			Type	Flow Rate	m <sup>3</sup> /s
Pressure	Pa	Inlet / Outlet Size	m	Manufacturer	
If sanitary construction, specify body elastomer					
<b>Mechanical Seal</b>	Y	N	Single	Double	Elastomer
<b>Jacket Required</b>	Heating			Cooling	Medium
Temp Pressure	°C	Pa			
<b>Materials of Construction</b>			Mixer	Jacket	
<b>Motor</b> Type	TEFC		XP	Voltage Phase	
Do you need VFD Capability?	Y	N	Agitation equipment tank?	Y	N
