

Quick Ship - The quick, reliable solution when you need it most.

Our Quick Ship program delivers value and application versatility faster than ever through select options for our EZstrip™ and our 2000 Series pumps.

Our Quick Ship program ensures you'll have the products when and where you need them most. Select Moyno™ EZstrip and 2000 Series pump models are available to ship in just **two weeks**. Utilize our Quick Ship Pump Selection Tool and reference helpful documents online.

Our 2000 Series pump handles radial and thrust loads, while our EZstrip progressing cavity pump offers a maintain-in-place solution for materials transfer and sludge conditioning. Their maximum performance and long life keep your operations flowing safely and efficiently. From wastewater and water treatment to mining and chemical processing, we're ready to help you stay productive. We don't stop there. You can depend on us throughout the entire life of your project through our service and aftermarket capabilities.
