

Mission™ Drilling

White Lightning™ Slip Seal

Delivering an economical solution to harsh drilling environments.

This Mission White Lightning Slip Seal Piston is a multi-durometer, solid bonded piston, built to deliver an economical solution to harsh drilling environments.

This piston is manufactured from a highly engineered elastomeric compound and is sometimes referred to as "bull nose". The White Lightning Slip Seal piston promises ease of assembly when loading into the liner due to the smooth engagement of the piston into the liner bore.

Benefits:

- Increased run times even at pressures up to 7,500 psi
- Superior resistance to tear and extrusion
- High resistance to chemical attack
- Economical solution to harsh drilling environments

Application:

- Capable of operating in fluid temperatures of up to 230°F (110°C)
- Compatible with oil based, water based and synthetic based drilling fluids
