

500kVA (KF550P) Rigsafe Diesel Generator

Based in Aberdeen, the oil capital of Europe, this Portable Power division can supply diesel driven generators for rental from 30kVA to 1500kVA. The generators are built to “rigsafe” specification, designed to work in the harsh offshore environment, either on oil platforms or wind turbines. These generators can also be used onshore in various industry sectors such as construction and entertainment.

The capital sales division can supply standard off the shelf generators or project specific custom built generators and offer the full spectrum of engineering from design, fabrication and assembly through to the FAT (Factory Acceptance Test).

The service division can provide a full health care package for diesel driven generators, comprising of installation, maintenance and repair of customer owned equipment.

Generators supplied for rental have the following features:

- Spark arrestor on engine exhaust outlet
- Chalwyn valve or Amot valve inline with engine
- Aspiration
- External emergency stop
- Platform interface for ESD start and stop
- (24Volt or 110Volt)
- Unit alarms and shutdown on:
 - Low oil pressure
 - High engine temperature
 - Over speed
- Lifting certificates for unit, slings and shackles (MPI and tested)

Optional fire detection, gas detection and extinguishing system. The generators can have a fire/gas detection system installed for certain applications:

- Heat detection
- Smoke detection
- Gas detection
- Fire/gas detection panel
- External controls and status indication
- Extinguishing system c/w internal and external pipework

Containerised Zone 2 200kVA generator

Rigsafe generators 30kVA up to 500kVA acoustic canopy c/w DNV shipping frame

Rigsafe generators 800kVA up to 1500kVA acoustic containers c/w 4 point DNV 2.7-1 lifting

The installation of a generator set must follow certain rules, which must be strictly adhered to in order to get the equipment to operate properly. Highly skilled generator engineers will carry out all works to ensure the safe installation and commissioning of your generator.
